

2002 Trek Addendum

The information printed here reflects product design, fabrication, and component parts at the date of printing. Due to product improvements, changes during the model year and/or transcription errors that may occur, information represented within this document may not be accurate at the time of purchase. Please confirm any information with the dealership.

The manufacturer reserves the right, at any time, to make changes in product design or material or component specifications as its sole option, without notice. This includes the substitution of components of a different brand or trade name, which will result in comparable performance. All information printed in this document is subject to change after the date of printing. Some features shown or mentioned in this document are optional and may only be available in selected floorplans.

There is a misprint on page 4-59 located in the sub heading of Patio Awning. The sentence reads; A patio awning comes standard with your Trek.

PATIO AWNING

The sentence should read; The Trek may be equipped with an optional patio awning.

On page 9-114 the WARNING reads tighten the lug nut over 450 ft-lbs of torque, this information is incorrect. For the correct information refer to the Workhorse owners manual for the ft-lbs of torque to apply to the lug nuts.
